US\$75B
in projects

69 YEARS
of experience

Lithium-ion

Thermal storage

Hydrogen cells

Expertise

Adiabatic compressed air

Flow battery (V, Fe, Zn)

1. PRODUCTION

Minerals & chemical products

Li, Fe, Ni, Mn

2. MANUFACTURING

Cathode, anode, electrolytes, other materials

- +

3. APPLICATIONS

Energy storage and gigafactories

Energy storage and gigafactories

4. RECYCLING

Pre-treatment, production and recycling of black mass

Pre-treatment, production and recycling of black mass
